## The Pricing Toolbox

### - The Essentials & Advanced Methods -

European's leading platform for pricing decision makers sharing intelligence and best practices, through a variety of interactive workshops, events and media.

## OVERVIEW

### THE PRICING TOOLBOX: ESSENTIALS & ADVANCED

Building on a validated theoretical framework as well as on many case studies from different industries, the seminar will convey insights that go beyond the classical assumptions and tools of price research and strategy. Traditional price management and the formal modelling of optimal prices are based upon the assumption of a rational decision-maker. Although this simplification facilitates mathematical modelling and arithmetical price optimisation, it totally ignores potential margins that arise from the consistently suboptimal decision strategies of real-life customers.

There is already a wealth of empirical findings and soundly based theories on this subject that are of immediate relevance to practice. These highlight the potential margins that far exceed what can be revealed and used by employing classic methods.

This 2-day training intends to deliberately promote an exchange of participants' experiences in this field, and furthermore pick up on specific challenges that the participants face in their daily business practice.

### OBJECTIVES

The intention of this seminar is to:

- Explain systematic errors that people repeatedly make when arriving at purchase decisions;
- Discuss real-life examples that exploit these errors through appropriate price strategies;
- Demonstrate how these findings can be used to improve classic pricing tools (e.g. conjoint analysis) without losing their advantages;
- Show how to effectively convert these insights into price promotions and price communication;
- Derive opportunities for implementing these findings into your own pricing approach and internal decision and controlling processes.

### FOR WHOM ?

Members of the management team as well as marketing, market research, product managers and pricing analysts – in short, anyone who deals with pricing and its associated problems within a company.

## YOUR COACHES ?

### BELGIUM

Nicole Huyghe is the founder of solutions-2, a dynamic and innovative research consultancy company specialized in statistical advice, analysis and training. Nicole, who has an Engineering degree from the University of Gent and an MA in Applied Statistics from the University of California at Berkeley, has more than 14 years of experience in statistical consultancy. She has worked both at client and agency side. Prior to starting solutions-2 (October 2002), she has spent five years in the market research industry in London and worked for Procter & Gamble, NOP World and MORPACE International. Recently she worked on projects for Toyota, Converse, Procter & Gamble, Alcon, Innogenetics, GfK, Synovate China, The Henley Centre and Ipsos.

### NETHERLANDS

Tijs Rotmans is currently working as a Managing Partner of The Pricing Company. The mission of The Pricing Company is to help organizations to improve their business results through better pricing. Prior to teaming up The Pricing Company, Tijs filled KPN's most interesting position: Manager Strategic Pricing. In this function he was responsible for the fixed and mobile services of the Consumer Market. His education in Physics serves as a good basis for the quantitative aspects of these pricing tools. Since 2005 he is a participant of the European Pricing Platform. Within the platform, he was active in the Dutch Reference Board.

Binne Heida is Manager Market Modelling, which means that he is responsible for all pricing research at Blauw. In this role he advises larger companies in The Netherlands on the best research method, and manages a team of researchers specialized in these subjects. He studied econometrics and likes to build models and do simulations based on customer preferences. In the past Binne was chairman of the 'research techniques' group of the Dutch market research organisation (MOA).

## **GERMANY**

Dr. Florian Bauer studied Psychology and Economics at the Technical University in Darmstadt, at MIT and at Harvard University. He devoted himself to research decision anomalies and the psychological effects of price, which were also the subjects of his doctorate. In 1996 he began his career as a strategy consultant at Booz, Allen & Hamilton in Frankfurt, where he mainly worked on behalf of international telecommunications and media companies. In 1999 two colleagues joined him in founding Vocatus AG in Munich, a full-service market research and consulting company that now employs over 60 staff. Florian Bauer lectures at the Technical University in Darmstadt, the Professional Association of German Market and Social Researchers (BVM), and the Bavarian Academy for Advertising and Marketing. He is also head of the Advisory Committee of the Professional Association of German Market and Social Researchers (BVM).

## **NORDIC**

Andreas Westling is a Senior Partner at Navetti. He has been responsible for the development of Navetti's pricing methodology for multinational manufacturing companies. Andreas has first-hand experience from multiple Pricing Excellence projects for international manufacturing companies within both B2B and B2C business environment. Andreas has also been responsible for change management projects and solution implementations to secure improved; price quality, customer trust, profitability, and efficiency. By implementing value based and market driven pricing for companies like ITT, ABB, Atlas Copco, Bosch Rexroth and Husqvarna. Andrea is skilled at technical, business and organisational elements of implementing pricing solutions.

# PROGRAM

## TERMS AND CONDITIONS

Fees are inclusive of program materials and refreshments, unless otherwise stated in the program details.

### PAYMENT TERMS

Payment terms following the online training program registration an invoice will be sent. Full payment is required within 14 days after invoice date. All invoices unless otherwise stated carry a 5% late payment surcharge. Payment must be received prior to the training date. The EPP reserves the right to refuse admission if payment is not received on time.

### SUBSTITUTION

Substitution provided the total training program fee has been paid, substitutions at no extra charge up to 10 working days before the event are allowed. Substitutions between 10 working days and the date of the event will be allowed subject to an administration fee of € 25.00

### CANCELLATION

All registrations carry a 50% cancellation liability immediately after the online registration form is completed. The training fee will not be refunded, but can be credited to a future training.

The cancellations must be received in writing 14 days before the course is held in order to obtain full credit for any future EPP program. Thereafter, the full training fee is payable and is non-refundable. Non-payment or non-attendance does not constitute cancellation.

By registration to an EPP training program the attendee agrees that in case of dispute or cancellation of the agreement the EPP will not be able to mitigate its losses for any less than 50% of the total training program fee.

If, for any reason, the EPP decides to cancel or postpone the course, the EPP is not responsible for covering airfare, hotel, or other travel costs incurred by attendees.

### PRIVACY STATEMENT

From Participants, Non-Participants (workshop en/or training attendees), providers of job vacancies, and subscribers to round table sessions, the EPP will collect you only those data that are necessary for the administration of the event or subscription. Participants may submit, at their own option, further information in their personal profile.

Contacts of the EPP may from time to time receive information about EPP initiatives. The EPP collects and stores potential subscriber/customer names and contact information. Also, the EPP collects personal data about the people who write articles and pricing news for EPP, or participate in the workshops or training programs.

The EPP will not, without prior approval, supply names and addresses to any third party except when (1) the participant / attendee subscribes to a journal of one of the EPP partners and such transfer is necessary to ensure continued receipt of the journal(s), or (2) the EPP is required to do so by law.
